**03/08/2023 Workshop Meeting**

**Date**

03/08/2023 17:15 - 18:15

**Attendees**

@Shuowen Yu, @Jun Xu, @Zhaolong Meng, @Yuchen Cao

**Discussion Items**

| Time | Description | Notes |
|------|-------------|-------|
| 15 mins | The whole team read through the specifications about the music project. We try to think of possible solutions for features identified in the specification. | |
| 15 mins | The whole team read through the specifications about the sharing trading project. We try to think of possible solutions for features identified in the specification. | Finally, we decide to choose the sharing trading system |
| 30 mins | Assign tasks:<br>1. We come up with ideas that there are totally 4 sections for the rubric. 2 related to use cases and 2 related to domain diagrams. It may be good for us to make 2 people do use cases and 2 people do domain diagrams.<br>2. We will go through the whole specification paragraph by paragraph again to specify use cases and classes.<br>3. After the whole team has written down the idea for each section, the people who are responsible for that section will fill out all the details and finish the tasks before the next meeting. | |
